Dear Prof. Perrimon:

I am a graduate student of PSU. I am working in Dr Zhi-Chun Lai's lab. I am looking for a good GFP MARCM line for my project. I read lots of your great papers. And I find you have some lines which are great to generate MARCM clones.

In the paper "Micchelli C., and Perrimon, N. (2006) Evidence that stem cells reside in the adult Drosophila midgut epithelium Nature. 439: 475-479", the following lines are good for me:

y,w,hsflp122;FRT40A, ubiq GFP/Cyo;

y,w;FRT40A y+;

y,w,UAS-GFP, hsflp; tubulin-Gal4;FRT82B, tubulin Gal80/TM6B;

y,w,hsflp; FRT82B, hs pi-Myc;

Would you please send them to me? Our Federal Express account number is 260108832, please feel free to use it for your convenience. Thank you for your help.

Dear Yan,

You have a package from M D Biochemistry (Gloria Gonzalez).

We can use the same form that you gave me, but just have those two Outside Members sign again, switching places.

Stop by when you can and I will give you the form.

Dear Yan,

I am checking with you about Stephen Schaeffer as an outside member. He is appointed through Biology which is the same Department as Dr. Lai. So I have to move him to the second Outside Member position (2nd page). Then I need to move Dr. Yanming Wang to the bottom of the 1st page as Outside Member, with his Department as BMB.

You did mean to have Stephen Schaeffer on your committee, and not Steven Schiff, who is a faculty member in Neuroscience and Engineering

Science. Is this correct?

I may need them to sign in the new position, but I will check with the

Graduate School tomorrow.

Hi Dr. Lai,

I have a FedEx bill here for you for two packages. One delivered from Tiam Xu of Yale; the other delivered from Gloria Gonzalez of M D Anderson Bio Chemistry. Which account would you like this charged to?

Thanks,
